Whether you're a professional designer, a social media manager, or just someone looking to optimize files for storage, ToolTonic provides a seamless experience with advanced AI-powered tools.

This user manual will guide you through all the features, settings, and best practices to maximize your experience on **ToolTonic.io**.

2. Getting Started

2.1 Accessing the Website

- Visit <https://tooltonic.io> on any device (desktop, tablet, or mobile).
- The website is fully responsive, ensuring smooth performance across all screen sizes.

2.2 Supported Browsers

ToolTonic.io works best on:

- ✓ Google Chrome (Latest Version)
- ✓ Mozilla Firefox (Latest Version)
- ✓ Microsoft Edge (Latest Version)
- ✓ Safari (Latest Version)

For optimal performance, ensure your browser is updated.

3. Key Features

3.1 Drag & Drop Upload

- Simply drag and drop your file (images, PDFs, etc.) into the upload zone.
- Alternatively, click "**Browse Files**" to manually select files from your device.

3.2 File Selection & Upload

- Supported formats: **JPEG, PNG, WebP, PDF, GIF, SVG**.
- Maximum file size: **10MB** (for free users).

3.3 Real-Time Preview

- After uploading, you'll see a **side-by-side comparison** of the original and compressed file.
- Adjust settings and see changes instantly.

3.4 Compression & Optimization Controls

- **Preferred Size Selection:** Choose between **Small (50%)**, **Medium (70%)**, or **Custom (Manual Input)**.
- **Brightness & Contrast Adjustment:** Enhance image quality before downloading.
- **File Format Conversion:** Convert to **JPEG, PNG, WebP**, or retain original format.

3.5 Download & Save Options

- Click "**Download**" to save the optimized file.
- Option to "**Save as Copy**" to keep the original intact.

3.6 AI-Powered Enhancements

- **Smart Compression:** AI reduces file size without quality loss.
- **Auto-Fix:** Corrects brightness, contrast, and sharpness automatically.

4. Step-by-Step Guide

4.1 Uploading Files

1. Method 1 (Drag & Drop):

- Drag your file into the "**Drop Files Here**" zone.
- Release to upload.

2. Method 2 (Manual Upload):

- Click "**Browse Files**".

- Select your file and click "**Open**".

4.2 Adjusting Compression Settings

1. Select Preferred Size:

- Choose from **Small, Medium, Large, or Custom**.

2. Adjust Brightness/Contrast (Optional):

- Use sliders to fine-tune image quality.

3. Choose Output Format:

- Select **JPEG, PNG, WebP, or Original**.

4.3 Preview & Download

- Check the **real-time preview** to ensure quality meets expectations.
- Click "**Download**" to save the optimized file.

5. Advanced Features

5.1 Batch Processing (Multiple Files)

- Upload multiple files at once.
- Apply the same settings to all or customize individually.

5.2 QR Code Generator

- Generate a **QR code** for your compressed file for easy sharing.

5.3 Social Media Presets

- One-click optimization for:
 - **Instagram Posts** (1080x1080)
 - **Facebook Cover** (820x312)
 - **Twitter Header** (1500x500)

5.4 EXIF Data Preservation

- Retain metadata (camera settings, location) if needed.

6. SEO & Performance Optimization

- **Fast Loading:** Built with **Next.js** for maximum speed.
- **SEO-Friendly:** Meta tags, alt text, and structured data for better search rankings.
- **Mobile-Friendly:** Fully responsive design.
